2018-2019
ORTHOPEDIC SHOES
Orthopedic shoes, for all needs and seasons!

2018 is the year that we at Material Consult is going into our 25’th year as a developer and reseller of orthopedic shoes! As a result, by close development collaboration with manufacturers and users, we at Material Consult today offer over 100 different shoe models with several different lasts, for all ages, purposes and seasons!

Since the start the core values for us at Material Consult has always been to give you as a customer quick and personal response, flexibility and help. So if you have some specific requests, do not hesitate to let us know, and we will do our best to fulfill you needs!

New for this year is that we introduce an innovative system that can replace laces and that makes lacing much easier! The system is called Quick Lacing System (QLS) and enables easy opening and closing of the shoes. This is done by using a rotatable rotary knob, that open the laces by rotating or a simple push in the center of the knob, as well as effective closing which is performed by reversing the rotation! This enables quick, precise and easy adjustment!

For this year we introduce several new models. And six of the new models comes with QLS.

Thank you for choosing Material Consult!

Mats Törnberg

Specifications and clarifications

(43-45) Sizes and names marked in red are factory orders. Delivery time 5-6 weeks.

**FACTORY ORDERING**
This pages (shoes) are available to order from the factory. Delivery time is 5-6 week. All shoes can be ordered in three widths (last), Narrow, Normal and Othosis - and, as desired, in different colors and leather.

- Possibility to order different sizes and last in right and left shoe.
- NR Title for narrow last.
- ES Title for orthosis last.
- ESS Title for New, even wider last.
- AV Title for antivarus last.

**Quick Lacing System**... is an innovative system that enhances and simplifies the use of your shoes. The function guarantee a simple closure with a rotatable knob, and for release a simple push at the center. As well, also an effective reverse rotation for millimeter adjustment/opening.

**Orthopedic Fit System**... Is a line of shoes and boots that are extra spacious, witch together with low weight and comfort is suitable for people with special needs.

**BG3 GRIP**. Is a new developed non-slip sole. Made with a mixture of rubber and textile. Allowing for optimum grip on slippery surfaces.

**Sympatex ALLWEATHER**. Is a 100% waterproof membrane with very good breathability. Suitable for all seasons.

**Sympatex REFLEXION**. Is a warm lining consisting of three layers, fur, membranes and aluminum. Where the aluminum reflects 75% of the heat from the foot. Suitable for autumn and winter.

**GoreTex® Extended Comfort.**
Extremely breathable and waterproof lining for all seasons. Particular suitable for removal of heat.

**GoreTex XCR® Performance Comfort.**
Well breathable waterproof multipurpose lining. Suitable for varied conditions, summer and winter.

**GoreTex XCR® Insulated Comfort.**
Made for comfort and thermal insulation and waterproofing. Suitable for winter.

Conditions: We reserve the right to change the specifications listed in this catalog.
